

Thinking Differently *about* Learning Differently

The Howard Rossman 2019-2020 Dearborn Academy Speaker Series

Join us for the second year of thought-provoking topics, dynamic speakers and lively conversation designed to help families, educators, advocates and others understand and celebrate the varied ways in which students learn. Together, we will learn how we can help young people who learn differently build strategies to achieve academic and social success.

Location and Time for All Events: Dearborn Academy, 575 Washington St., Newton, MA, Starting at 6:00 p.m.

Vaping: A Dangerous Addiction

Tuesday, November 12, 2019

Tracy Rose-Tynes, MS, BSN, RN

More and more teens are using e-cigarettes and getting hooked on vaping. Learn the facts about this addiction and find out what you can do to stop the trajectory of this deadly health epidemic.

Growing Up Stressed? Or Growing Up Mindful?

Tuesday, January 21, 2020

Dr. Chris Willard

Discover the simple science of mindfulness. Help yourself and your student overcome stress by practicing this therapeutic technique. Learn how it rewires our brains and bodies for greater resilience across our lifespan.

Understanding PANS/PANDAS

Thursday, March 12, 2020

PANS/PANDAS Panel

Learn more about how infection may trigger a wide range of neuropsychiatric responses, including OCD, ADHD, generalized anxiety, mood lability, rage, tics, marked shifts in reading and math skills, and separation anxiety.
